To whom it may concern

I confirm that we have been dealing with Datascope for 5 years.

At all times I have found Datascope and all their staff to be dependable, reliable, hard-working, conscientious, honest and courteous.

Datascope has been an integral part in us implementing Warehouse Management across three of our Distribution Centers as well as our factory and we intend to implement their product in all our distribution center(s).

Datascope has assisted us every step of the way in all of our projects ensuring that staff are always available throughout the project. From the functional specification, labeling the warehouse, onsite training all the way to ensuring that the product is adopted by our Staff whilst ensuring the highest level of support to IT and the related business managers. At "Go-Live" their hands on approach as well as always being there to roll up their sleeves ensure that we always have successful implementations.

Yours faithfully

A handwritten signature in black ink, appearing to read 'M. van Staden', written over a light blue horizontal line.

Martin van Staden

Group IT Director
